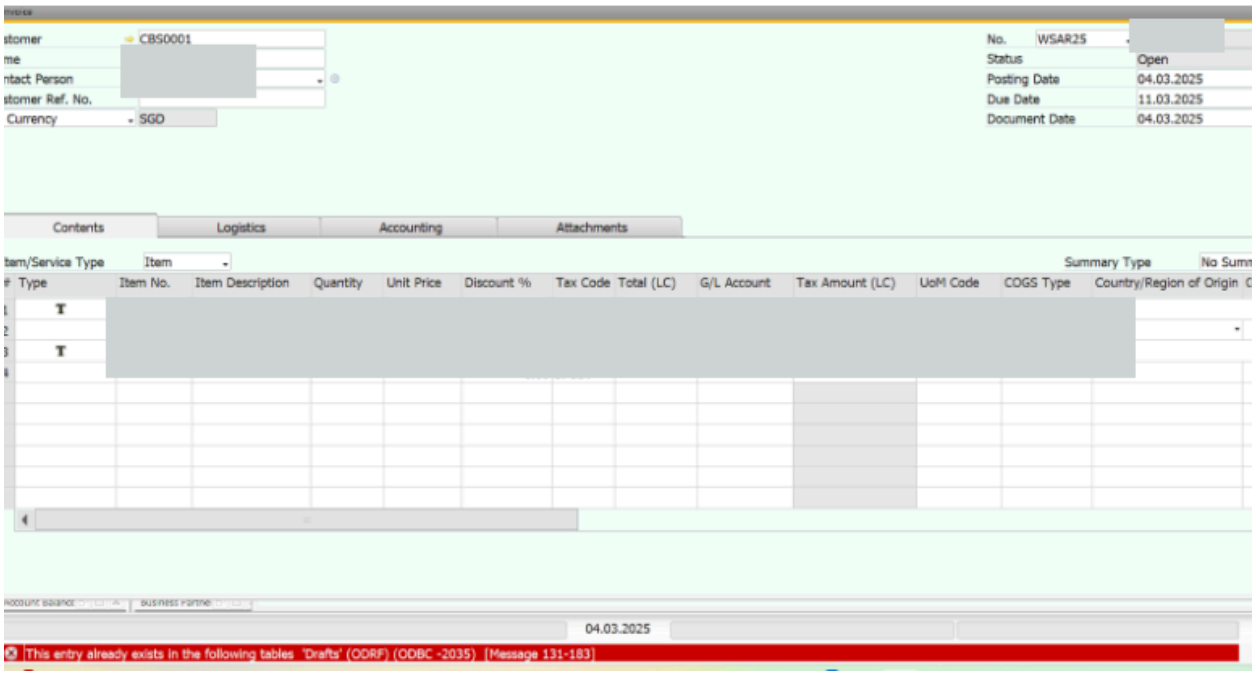
Question:

Question: I am receiving the error message: "This entry already exists in the following table 'Draft'".

Scenario: You are attempting to save a new document as a draft, but SAP Business One presents an error indicating that the "entry already exists in the 'Draft' table." You might be expecting to copy an existing draft's structure and just change its content.



Answer:

- Restore numbering file: Toolbar > Help > Support Desk > Restore > Restore Numbering File

- Help
