

Question:

You cannot open window [866] Exchange Rates and Indexes with your current license

Two of our limited logistic uses cannot generate AR Aging. Error generated is "You cannot open window [866] Exchange Rates and Indexes with your current license" while other user with same license as limited logistic has not problem generating aging report.

Answer:

Change the user to SAP Business One Professional User (license) first, check and do whatever change first, then change back to the SAP Business One Limited Logistics User
